The Republican believes in strictly one price for advertising, and accordingly it publishes its rates in full, and exactly as they are. Special position ads 25 per cent. extra.

Preferred Leads 10 cents per line first insertion, and 5 cents per line each subsequent insertion.

All contracts and bills for advertising payable monthly.

Cover them over with beautiful flowers. Cover them over, these soldiers of ours.

HAVE YOU SEEN THE WEEKLY REPUBLICAN? If not, call at the office and get a copy for your distant friends.

The Santa Fe New Mexican has fallen into line with the Republican in advocating the abolition of the fee system for county officials.

WHAT SUPERIOR CONDUITMENTERS the appointees for this district would be in the eyes of the Gazette if they were only Democrats. But being Republicans, "Oh Lord!"

THE Santa Fe's new overland flyer ought to be a success. It will considerably out distance any of the other transcontinental roads in the run from Chicago to the coast.

PHOENIX is enjoying exceptionally fine weather these days. During the day it is just cool enough for comfort and the nights are glorious for all who court the blessing of sound, refreshing sleep.

THE Albuquerque Citizen has the following to say about our popular Territorial Secretary: "Arizona has an enterprising citizen in Secretary N. O. Murphy. He works every day in the week for the interests of Arizona, and his work is effective."

CALIFORNIA has shipped 2500 car loads of citrus fruits this season, of which Riverside furnished 1400. There is no reason why, with the proper work and enterprise, that the country around Phoenix cannot outrival Riverside as a shipper of this class of fruits.

WHAT can the matter be that the hold-over Treasurer of the Insane Asylum is so loth to turn over his books and accounts to his lawful successor? Can it be that he dare not let his methods of handling the monies become known? Such needless delay indeed looks suspicious.

SENATOR STEWART told some very plain truths in the Senate, yesterday, about Major Powell, Superintendent of the Topographic Survey. All western men know that Powell has simply wasted the money appropriated for developing irrigation and he has evinced about as much practical knowledge of the subject as a city-bred college youth knows about practical mining.

THE first number of THE WEEKLY REPUBLICAN was issued yesterday. It contains twenty-five columns of reading matter, including a summary of all the news of the world for the week, mining and railroad news, Territorial news, bright miscellany, editorial and all the features that go to make up a first-class weekly. The subscription price is only \$2.50 a year.

LET us be magnanimous enough to remember that all, whether of the blue or gray, were American soldiers:

These in the robes of glory,
Those in the gloom of defeat;
All in their battle-bled gory,
In the dusk of eternity meet.
Under the sod and the dew,
Sleeping their lives away,
Under the one, the blue,
Under the other, the gray.

Says the Riverside Press: "The Los Angeles Tribune runs the risk of being considered offensively personal by some would-be-spy and enterprising newspaper men in remarking: 'A lie is always sensational; the truth is rarely, if ever, so. People seeking for sensations are in pursuit of falsehoods.' What does the Press expect? Does it expect the sleepy Tribune to wake up sufficiently to recognize the difference between a lie and the truth?"

AN evidence of what can be done in the Salt River Valley in fruit culture was shown on the streets yesterday by John Gray who lives a short distance north of town on the Cave Creek road. It has been asserted that the climate here was unfavorable for blackberries, yet Mr. Gray had some as fine specimens of the early Crandall variety as were ever grown. It is remarkably early in the season for this fruit, which only shows that labor properly directed can bring about great results here. Mr. Gray is so encouraged with the cultivation of what vines he has that he proposes to set out several thousand more next spring.

SAMPLING WORKS FOR PHOENIX.

THE REPUBLICAN is glad to know that there is some prospect for the erection of sampling works in Phoenix. Our merchants and business men do not seem to realize how much such works will add to the business interests of the city. When erected and running they will cause to come this way all the shipping ores within sixty or seventy miles, as it will be a down-hill haul, and in nearly all cases by wagon road.

Presently by her sampling works has opened a big industry and market in this direction. Nearly every evening pack trains and freight teams loaded with ores arrive in that city and unload. The next morning each outfit is loaded with supplies for the different mines, ranging in value from \$500 to \$2000. Hundreds of men are now busy working on these mines tributary to Phoenix and thousands more can be profitably employed, if this interest is properly looked after.

All the hope for the future, and the greatest prosperity of Arizona is in the development of her mining interests. By this we secure the best of all, a home market for everything we can produce in this rich and productive valley. In such a home market no outside country can possibly compete with us, values will always be remunerative and the greatest good to both miners and farmers will be the result.

Every business man who has his eyes open ought to do in his power to encourage or aid in the erection of sampling works for Phoenix. Reduction works will follow as a natural result.

THAT FRAUDULENT TELEGRAM.

Under the fire of THE REPUBLICAN the Citizen virtually admits that it knowingly committed a fraud upon the public and did try by this fraud to injure the Governor and Surveyor-General. It tried first to squirm out by pleading ignorant innocence—a kind of heathen Chinese simplicity.

The following from the Citizen shows that the wish was father to the thought, and by the aid of Brewster Cameron, C. R. Drake and their willing tool, the Star, it was so put up as to give the Citizen a chance to plead "interchange of telegraphic service."

The "What Does it Mean" dispatch is still worrying the soul of our Republic. Undoubtedly it scared a little too close to the truth to be comforting.

THE REPUBLICAN has heard of Drake's threat to dissolve the 15th legislature, and of Cameron aiding the Democratic Marshal to pack a United States Grand Jury and then turning States evidence to have good Republicans indicted for soliciting and contributing to the Republican campaign fund. THE REPUBLICAN has heard both sides of the question, and this fraudulent telegram was just the act to be expected.

THE REPUBLICAN's note-book contains a full account of the doings of slippery Drake and vindictive Cameron, considered from a political point of view. It holds that the political acts of any man are always proper subjects of comment and it will certainly call time on them whenever it sees proper to do so. As a political paper THE REPUBLICAN deems it its duty to condemn any Republican official as quickly as a Democrat, if the former fails to perform his duties right, or ignores the party which created him, nor would it be true to the party if it failed to do this.

THE M. & P. RAILROAD.

A morning contemporary says: Experience has shown that wherever railroads have been built, the country has been speedily populated, land has enhanced in value, and wealth accumulated where nothing before had flourished but dullness and torpor.

This fact has been proven in the history of Phoenix and the Salt River valley. Until the building of the Maricopa and Phoenix Railroad it was a hard thing to get people to come here and see the advantages this valley had to offer in the way of investments and homes for the people. But within a year from the completion of that road every owner of a town lot or piece of real estate in the valley found his property enhanced in value from one hundred to five hundred per cent. And in the face of this and with the above quoted admission, the manager of the M. & P. Railroad has been the subject of the vilest malice, vituperation, abuse, and even personal violence, because he simply did the duties required of him.

Phoenix owes all the prosperity it now enjoys, all the permanent growth it has received since the advent of the M. & P. Railroad, all the advance in value of real property, and the most of its increase in population and importance to the M. & P. Railroad, and it is a mean and dastardly piece of business to abuse any of its officers. As to the matter of discrimination of freights in favor of California against Arizona, it is an untruth. Cattle, grain, hay and flour are shipped from here to points either east or west at rates, over the Southern Pacific, with which Southern California cannot compete. Any one who doubts this has only to apply at the railroad office in Phoenix and he will there find this statement verified.

It is grand custom we have in this country of setting apart one day in the year to be known as Memorial Day, when we shall scatter flowers upon the graves of our fallen soldiers. It helps us the better to realize what our country is, what the soldiers fought for, and the liberties and blessings we enjoy today. Tell the children who strew the graves of the soldiers what the significance of the act is, that they may learn from it patriotism and a greater love for country, so that forever onward we shall be one country with one flag.

THE REPUBLICAN hears encouraging reports from the Congress mine. Under the superintendency of Superintendent Frank Murphy, mine and mill are running smoothly and an average turnout of \$14,000 is made every month. It is said that extensive improvements are soon to be made to the mining plant.

ALL the money has been subscribed and the Baptists of the United States are now assured of having one of the greatest universities in the country. With \$1,000,000 to start on it will certainly be built on a good foundation.

THE TERRITORY.

Col. J. A. Tobolskie, of Tucson, will deliver the Memorial Day address in Los Angeles today.

Clark & Starbuck, of Huachuca, will soon begin work on an artesian well with improved machinery capable of boring 3000 feet.

The gold nugget found in the Big Bug district near Prescott a few days ago measures five inches the longest way and three and a half inches across.

Major Wham has just returned to Tucson from a pay trip to the various army posts in Southern Arizona. This is Major Wham's first trip since the robbery last year.

Says the Yuma Times: The Colorado is still rising and unless the waters soon recede, will in a short time reach within two or three feet of the much-vaunted high water mark of 1884.

Lieutenant Dean of the 27th Cavalry, with eleven soldiers and two pack mules, came to Tombstone at midnight last night, in response to a telegram sent by District Attorney Stillwell yesterday morning. They left at daylight this morning for Rucker canyon, where they will endeavor to strike the trail of the Indians who killed Hardee.

Tucson Citizen: The Board of Supervisors have instructed Assessor Snyder to enforce immediate payment of poll tax from every one liable for the tax, whether on the tax roll or not. Heretofore it has been the practice for most taxpayers to pay this special tax at the time they paid their property tax, but this course resulted in quite a loss to the school fund, to which his special tax goes, by reason of the large number who allowed their taxes to go delinquent, and as the poll tax must be collected within the calendar year they thus escape. No one can justly complain of this new departure, as the non-taxpayer should be shown no more leniency than the property tax-payer.

The City of Mexico.

(Gath in the Equivocal.)

"What is the state of Mexico in the way of growth and cleanliness and health?" "Mexico has a superb situation, and is growing very fast. It is growing ornamentally as well as in area. They are now at work making tunnels to improve the sewerage of the city. Heretofore, in accordance with fifteenth and sixteenth century notions, the sewerage has been slighted. When these works are done, Mexico will be the most healthy place, I suppose, in the world. It is so high up in altitude that no epidemic has ever prevailed there, in spite of the want of sewerage. It is to be sewered now, and when that is done it is going to make a noble winter resort."

Sold Her Papoose.

(Boise City Democrat.)

On Saturday a dusky dame known as Whiskey Jim's Sawyer, concluding that her five-months-old papoose was a great care to her, sold him to a China woman for \$15. The foster-mother scrubbed the little one till it fairly shined, shaved his head, dressed him in a miniature Chinese costume, and crowned the whole with a comical little red cap, which made him look like a little monkey. The Indians were highly indignant over the affair, and the moon-eyed population of this city were far from satisfied with the transaction. On Tuesday the father of the youngster came to Sheriff Miller and asked him to go with him and get the child, which was done, and now the Chinese damsel bewails her \$15 as lost, and the baby's mother seems to be perfectly happy.

ARRIVED IN PHOENIX.

The Famous Vitaphonic Physician, Dr. J. D. MacLennan Of

San Francisco, Cal., Whose Marvelous Cures Have Won for Him a World-wide Reputation.

Now located for a limited time only, in the Monihan building, rooms 1 and 2, where he offers

FREE CONSULTATION and free treatment to the poor, while the rich are expected to pay a moderate fee. Anyone who doubts his ability the following cases, selected from thousands of others on file at his office, ought to satisfy them to the contrary. One thousand dollars will be given for any of them not genuine.

Ex. Gov. A. P. K. Safford, of Arizona, cured of nervous prostration in three weeks recommends Dr. MacLennan very highly. Attorney-General Marshall's reply to Hon. T. F. Jones.

OFFICE OF THE ATTORNEY-GENERAL OF THE STATE OF CALIFORNIA, SAN FRANCISCO, March 15, 1884.

Hon. T. F. Jones—My Dear Sir: I have just received your letter of the 13th. Doctor MacLennan was of great and singular service to me. I certainly would try him if I were in your place. He has worked some wonderful changes within my knowledge. Respectfully, E. C. MARSHALL.

Now read what Doctor A. S. Hughes, a medical practitioner of forty years, whom Dr. MacLennan cured, has to say:

TESTIMONY OF DOCTOR HUGHES. The undersigned, a resident of the town of Slaughter, King County, Wash., has been afflicted for over two years with a disease termed by some physicians epilepsia, by others, the doloureux, from which I have suffered at times the most excruciating pains, only relieved by hot fomentation. The disease and pain started in my upper jaw on the right side, under the right ear, the nose, extending up through the bones of the face, and finally to the right side of the head affecting my eyes.

My own skill, being a practicing physician for over forty years, and counsel from several others of good repute, failed to give me any relief. I applied to Dr. MacLennan and received several treatments from him and in truth must say that I was relieved of all pain. I sleep well, eat without pain and enjoy a peaceful and pleasant state of mind.

A. S. HUGHES, M. D. Dr. A. Boyce, of Toledo, Wash., testifies: "This is to certify that I was quite deaf. I called on Dr. MacLennan in and three applications he cured me. I recommend the doctor, as I believe he is doing much good."

Dr. A. Y. Boyce, of Toledo, W. T., Prof. A. Gonzales, of San Francisco, given up by his physicians to die of sapped vitality and paralysis, was carried perfectly helpless to MacLennan and cured, now says:

"In less than one month I was enabled to resume my occupation as professor of music and violinist at the Tivoli opera house, and ever since, for over eight years, have continued in good health without the slightest return of my weakness or disease."

Dr. Henry Slade says: "My case was considered incurable by the best physicians, but Dr. MacLennan restored me the use of my limbs in less than twenty minutes, being paralyzed for over four months."

Rev. John Stipp, Secy. Lin Co., Oregon, writes: "By the recommendation of my son-in-law, J. C. L. Miller, whom you treated successfully for rheumatism, and his wife also for a diseased shoulder and nervousness, I submit my case to you."

SAN JOSE REFERENCES.

J. W. THOMAS, 312 South First street, who was a great sufferer, going about on crutches, threw them away after receiving his third treatment from Dr. MacLennan.

Michael Minahan, residing at 39 Julia street, totally deaf in his left ear, together with constant roaring and ringing in his head, was cured the other day after a few treatments from Dr. MacLennan.

Dr. MacLennan treats, successfully, all broken-down constitutions, nervous and general debility, weak spines, prostrations and all kinds of male and female weaknesses, of a private nature or otherwise, brought on either by abuse or excess, diseased liver, kidneys, stomach, heart, lungs, throat, head, eyes and ears, internal ulcers, loss of voice, weakness of the limbs, weak back, weak eyes, dyspepsia, rheumatism, asthma, bronchitis, catarrh, deafness, diabetes, epilepsy, consumption, paralysis, malarious fevers, cancer and many other chronic and painful diseases too numerous to be mentioned. Consultation free. Dr. MacLennan, Monihan building, corner Washington and Cortez streets.
